How can I support my child at school?

1. Support your child to complete their home learning - create an environment at home where they can focus and know you are there to support them. Encourage them to take up homework club if it will help them.
2. Encourage independence and a sense of responsibility - jobs and responsibilities at home.
3. Talk with your child about school, friends and things they look forward to in the future.
4. Help your child set their own achievable goals and talk about the steps they need to take to reach them.
5. Help your child to build resilience - to have another go when things get tough and understand that setbacks are a part of life.
6. Talk to your child about their behaviour at school and how they can demonstrate our CARE values.

Online Safety and Mobile Phones

- ★ Does your child need a smartphone to walk the distance from your door to school?
